

Spearfish School District 40-2
3000 Business and Non-instructional Operations

Board Policy

Code: 3801

DISTRICT TRANSPORTATION POLICY

The Board of Education of the Spearfish School District is committed to a philosophy of providing efficient and economical bus service to district patrons according to state law, while maintaining the safe transfer of the individual student.

The Board of Education believes parents share the responsibility for the safe transportation of students.

The Board of Education and administration will closely monitor expenditures for transportation related to bus routes, activity transportation and staff travel to meetings or other work-related activities.

Requests for bus services are due to the superintendent's office prior to the last day of June each year preceding that school year. The school district and the bus contractor will map out the bus routes. These routes will be designed for the least amount of bus miles possible, attempt to hold down the length of time students are on the bus and conform with state rules and regulations related to transportation.
