

# How to use Safe Exam Browser

Safe exam browser locks down student computers when taking a quiz so that they cannot access anything on the computer other than the quiz in Moodle. It disables copy/paste and other methods of circumventing computer restrictions.

1. Login to Moodle and open your course
2. Browse to the quiz you'd like to use Safe Exam Browser with
3. Click on **Edit Settings** under **Quiz Administration**
4. Expand **Extra Restrictions on Attempts** and click **Show More**

5. Under **Browser Security**, change the drop down to "Require the use of Safe Exam Browser"

6. Scroll down and click **Save and Display**

A screenshot of a red button with white text that says "Save and display". The button has a slight shadow and is centered horizontally.

7. Your quiz is now setup to require use of Safe Exam Browser. Students will not be able to access the quiz unless they use Safe Exam Browser. The shortcut to Safe Exam Browser should be located in the student's start menu.
